

Verçade is not just the name of a product, but the essence of revolution in wall fashion. As the leader in sustainability and transparency, we are engaging in collaborative partnerships that result in healthy, high-performing and biophilically-designed products. Disruptive intelligence dictates our culture. We are answering the need to educate, motivate, and encourage individuals to invest in a restorative ecosystem.

The future starts with all of us.

PRODUCT SAFETY TESTING

Verçade products are tested to the latest standards for Volatile Organic Compounds (VOCs), formaldehyde, phthalates, and heavy metals (including mercury and lead). In fact, the standards used for the testing of phthalates and heavy metals in Verçade are the same standards used for the testing of children's toys, setting a very high bar. Verçade has surpassed that bar.

By selecting Verçade, you have made the choice for safe and sustainable products. And isn't that what we all want when it comes to products in our businesses and homes? Come and discover all the possibilities of Verçade.
